Annexure "A"

1. General Information

Purpose of the NIQ – To establish a Web Based Medical e-Books and Journal (National/ International) gateway and discovery service for online medical e-Books and Journal (National/ International) subscribed by MGM Medical College and open access medical journal and e-Books for Medical college at Jamshedpur

2. Scope of Work :

Online International / National Medical e-Books and Journal Gateway for MGM Medical College, Jamshedpur

1. The gateway should aggregate the metadata of more than 15000 online medical journals and more than 15000 e-Books on a single platform.
 2. The platform should have a publisher independent search interface for searching journal articles and other data sets like conference proceedings, book series and audio video lectures
 3. The gateway should enable full text access to more than 7500 open access medical journals along with subscription-based journals.
 4. The gateway should have the facility to configure the library subscribed journals of the college and facilitate the searching of subscribed articles.
 5. The gateway should have personalization service of registering the profile of the user and delivering the alerts to the users about new articles.
 6. The user should be able to set up RSS Feed email alert for every journal indexed in the gateway.
 7. The journals indexed in the gateway should have minimum back files from 2000 onwards unless the journals started publishing later than year 2000.
 8. The gateway should facilitate discovery of journals based on Scimago Ranking, NAAS rating and H-Index.
 9. The gateway should facilitate browsing of Hybrid Open Access Journals
 10. The gateway should facilitate browsing of Table of Content for all journals.
 11. The gateway should facilitate searching within search results.
 12. The gateway should automatically take care of Singular-Plural and US-European English while doing search in the platform.
 13. The articles should display the author email address wherever available in the journal articles.
 14. The search results after performing basic or advanced search should have filtering functionality to filter the results based on subject, country of publications, years, journal name and authors.
 15. Online medical journals published from India should be indexed and searchable in the gateway service.
 16. The gateway should facilitate searching of audio/video talks from publishers who provide subscription to these databases and discoverable through the gateway for a universal discovery.
 17. Time Line – 10 Days from the award of work order.
-
