

GOVERNMENT OF JHARKHAND
ROAD CONSTRUCTION DEPARTMENT

Letter No - 40 नि 06-वि वि - 63/2007 ^{6125(S)WF} Dated :- 23/9/16

From,

Engineer-in-Chief,
Road Construction Department
Jharkhand, Ranchi.

To,

Chief Engineer,
Central Design Organisation,
R.C.D., Government of Jharkhand.

Chief Engineer (Communication),
R.C.D., Government of Jharkhand.

Chief Engineer,
National Highway Wing,
R.C.D., Government of Jharkhand

Sub :- Empanelment of Consultants for Highways & Bridge Project.

Sir,

Road Construction Department has finalized the panel of consultants in various categories for working in the Highway and Bridge projects. The categories under which the consultants are empanelled are as below :

- | | |
|--------------|--|
| Category-I | Project preparation of all types of Highway projects including Bridges/flyover / grade separators etc. |
| Category-II | Project preparation for all types of projects including Bridges/Flyovers/ grade separators etc including approaches. |
| Category-III | Bridge inspection & rehabilitation. |
| Category-IV | Geo-technical investigation for highway and bridge projects & high embankments. |
| Category-V | Traffic & Transportation Studies. |
| Category-VI | Construction supervision of all types of Highway Projects. |
| Category-VII | Construction supervisions of all types bridges/flyovers/grade separators including approaches. |

2. The list of empanelled consultants for Category-I to Category-VII is enclosed as Annexure I. The list shall be valid from date of issue (23.09.2016) to 22.09.2018.
3. Henceforth, consultancy proposals for SH works and other schemes shall be invited, wherever needed, only from the empanelled consultants as per their eligibility for the type of work involved.

4. The empanelment is subject to the satisfactory performance by consultants. The consultant shall be fully responsible for the accuracy of data, analysis and design of the project report submitted by them irrespective of the fact whether the same has been examined and approved by the employer / client or not. Similarly in case of proof consultant, he will be finally responsible for the accuracy of analysis and design except initial data irrespective of the fact whether the same has been examined and approved by the employer or not. If there are adverse reports regarding performance, deterrent action will be taken against the consultant as per the procedure outlined in Annexure II. In addition the consultant will be asked to refund the consultancy fee received from the employer / client. This should be clearly stipulated in T.O.R. for the consultancy services for the works.
5. The empanelment is subject to condition that there will not be any change in the structure / constitution of the organisation of the consultant during the validity of the panels from that indicated in the applications per empanelment of the consultants.
6. In the event of deficiency of service or service or misrepresentation by a consultant, the concerned Executive Engineer's are requested to send the details supported by enclosures and consequences of deficiency of service to the Department for necessary action.
7. Let the contents of this letter be brought to the notice of all officers dealing with works in State Highways and other schemes.

Yours faithfully

Encl : As above (Annexure – I & II).

Engineer-in-Chief
Road Construction Department,
Jharkhand, Ranchi

Memo No :-

Ranchi, Dated :-

Copy : All Superintending Engineer (including NH), R.C.D./Member Technical, SHAJ/All Executive Engineer (including NH), R.C.D./Empanelled Consultant (As per list) / Secretary Cell, R.C.D. for information and necessary action.

Engineer-in-Chief
Road Construction Department,
Jharkhand, Ranchi

DETERRENT ACTION AGAINST ERRING EMPANELLED CONSULTANTS

Road Construction Department (RCD) has empanelled the consultants for the seven categories as mentioned earlier.

The contract agreements at present for consultancy services in highway sector do not clearly specify the procedure to be followed and deterrent action to be taken by the Employer/client in case of deficiencies specially in respect of accuracy of data analysis and design / non-fulfillment of commitments by the consultants observed by the Employer/client during implementation of the project or at a later date. As such, Employer/client are unable to take any action against the erring consultants.

In view of the above, it is proposed to specify responsibilities of the consultant in the conditions of empanelment and in the Terms of Reference that he would be fully responsible for the accuracy of data, analysis and design irrespective of the fact whether the same has been examined/approved by the Employer/client or not. Similarly, in case of proof consultants it is proposed to be specified that they shall be finally responsible for the accuracy of analysis and design, except initial data, irrespective of the fact whether the same has been examined and approved by the Employer/client.

2. Deficiency of Services.

The role of a consultant in Highway Sector is four-fold, namely :

- (a) Preparation of pre-feasibility and feasibility reports.
- (b) Preparation of detailed project report.
- (c) Work supervision.
- (d) Proof Consultancy.

In each of these areas, the type of complaints received can be classified as minor or major failures on the part of the consultants. The consequences are invariably time and cost over run in the project. Besides, in some cases, contractual complications leading to arbitration / court cases also result in failures and accidents. To ensure a fair degree of accuracy on the part of the consultants in bidding and carrying out the tasks assigned to them, it is necessary to take deterrent action against action against the erring consultants in any of the following ways :-

- (i) Issue warning to the consultants under intimation to the Department.
- (ii) Suspending their registration / empanelment with the Department for a temporary period of three to six months in case of minor deficiency in services.
- (iii) Removal of erring consultants from the panel for a period of 1 to 3 years for major negligence / deficiency in services. such consultant will have to make fresh application to Department for empanelment after the expiry of the above period.

Wide publicity will be given to the deterrent action taken against the erring consultants through circulation to all State Governments / Government Departments and publication of notices in newspaper and IRC journals.

3. Type of Deficiency of Service-Errors, Omissions & Commissions or Misconduct of Consultants.

Some of the common errors and omissions generally committed by the consultants are listed in Appendix – 'A'

4. Enquiry Procedure.

- 4.1 Employer / Client will satisfy himself about the nature of deficiency of services and issue warning under intimation to the Department {para 2 (i) above} in case of deficiency of very minor nature not having any time/cost implication for the successful implementation of the project.
- 4.2 A complaint or an observation of deficiency of services, errors and acts of an omissions & commission by a consultant shall be sent by the concerned Executive Engineer through proper channel to The Engineer-in-Chief, Road Construction Department under intimation to Secretary, RCD giving details of the errors, acts of omissions and commissions and deficiency of services of the consultant except in case of issue of warning. A committee consisting of the following will look into the complaint or observation:
- (i) Chief Engineer (Communication), RCD
 - (ii) Chief Engineer (Central Design Organisation), RCD
 - (iii) Concerned Superintending Engineer, RCD
 - (iv) Superintending Engineer (Bridges, Central Design Organisation), RCD
 - (v) Superintending Engineer (Road, Central Design Organisation), RCD
- 4.3 If the Committee on examination of the complaint / adverse report from the Executive Engineer of the concerned road division feels that prima-facie case exists for taking deterrent action against the consultant, it will give a mandatory notice to the consultant at its registered address stating the facts of the deficient service, errors, and acts of commissions/omissions. The consultant will be given a reasonable time to reply to the charge and also an opportunity to be heard in person by the committee at a specified time and date.
- 4.4 The committee will enquire into the charges refuted by the consultant.
- 4.5 The committee will record all written and / or oral submission and arguments presented. Entire proceeding shall be recorded in writing and decision given in each case. If the consultant chooses not to respond to notice issued by the committee or does not attend the meeting of committee to explain and defend the charges, and ex-part enquiry may be conducted and decision recorded. The Committee shall decide on the severity of the deficiency / omissions etc. considering the facts of the case and the implication of financial safety and other aspects.
- 4.6 On completion of the enquiry, the committee shall submit its report with details of findings and recommendations to the Engineer in Chief, RCD.
- 4.7 Engineer In Chief, RCD will take appropriate action based on the recommendations of the Committee under intimation to Secretary, RCD.
- 4.8 The **time frame** for conducting inquiry and taking final action will generally be as follows :-
- (i) Submission of report – within one month of the receipt of the complaint.
 - (ii) Conveying the final decision – within 15 days of receipt of final report.

5. Exceptions

- 5.1 The prescribed procedure for deterrent action outlined in para 4.3 to 4.8 above will not be followed, before ordering deterrent action under special circumstances like;
- (i) Where a penalty flows from conduct of the consultant which has led to his conviction on a criminal charge; or action of the consultant jeopardizing the security of the State or
 - (ii) Where the committee is satisfied that it is not practicable to hold an enquiry in the matter in the prescribed manner.
- 5.2 In cases under Category 5.1 (i), the Committee will peruse the judgment of the criminal court and take into account the gravity of the offence of misconduct committed, its impact on the project, administration, other extraneous circumstances etc. and recommend deterrent action to be taken against the consultant as it is competent to do after giving an opportunity to the consultant to make representation on the deterrent action proposed to be taken.
- 5.3 Regarding category 5.1 (ii) mentioned above, it will be obligatory on the part of the Committee to record in writing the reasons for its satisfaction to the effect not to hold the enquiry. The reasons, though brief, shall not be vague.
- 5.4 The Engineer in Chief, RCD will take appropriate action based on the recommendations of the committee under intimation to Secretary, RCD.

6. Appeal or Review :

The aggrieved consultant within thirty days of receipt of final decision / order removing the consultant from the panel {para (iii) above} may appeal to Secretary (RCD) against the order or seek its review by the Department.

Secretary, RCD may condone the delay in filing of appeal, if valid reasons are given. The decision of the Secretary, RCD shall be final and binding on the appellant.

TYPE OF DIFICIENCY OF SERVICES – ERRORS, OMISSIONS, COMMISSIONS OR MISCONDUCT OF CONSULTANTS

Following are some of the common errors and omissions generally committed by the consultants which will be given cognizance :

A. Errors in Bid Data :

- (i) Non-furnishing / concealing/misrepresentation of facts like litigation / expulsion/ action taken/ abandoning of work, failure and distress in works handled earlier etc.
- (ii) Submission of bio-data of personnel without their consent or false bio-data.
- (iii) Non-availability /non-deployment of the personnel projected for the job while bidding and seeking change of personnel soon after the commencement of services/frequent change of personnel during the contract period.

B. Errors in Project Data & Design :

- (i) Survey lines and levels and features not matching the ground conciliation.

- (ii) Traverse not closing properly.
- (iii) Hydraulic design parameters based on incorrect data and field survey.
- (iv) Inadequate and / or incorrect subsoil investigations warranting change in design during execution or time and cost over run or performance or affecting safety of road/bridge structure.
- (v) Design not conforming to the requirements of relevant codes, standards and specification and sound engineering practice.
- (vi) Incomplete submission for getting the payment from the client or delay in complying with the observations/instructions given by the client on draft reports etc.

C. Errors in Supervision :

- (i) Not action impartially or acting in collusion with contractors in award of variations, fixation of new rates etc.
- (ii) Not keeping proper records regarding quality control, inspection, ejection/rectification of work etc.
- (iii) Failure to give proper and timely advice to client / Contractor to enable corrections during execution.
- (iv) Delay in decision and withholding approvals etc.
- (v) Recommending extension to contractor with a view to extend duration of supervision services.
- (vi) Refusing to give reasons for decisions when called for by the client.
- (vii) Not being fully conversant with manuals, specification, standards, Department's guidelines and requirements of the project to be followed during construction.

D. Other faults :

Subletting of any part / major works without authorization.
